ONBOARDING GUIDE

# Onboarding Your AI Strategic Partner Agent

**A Digital Support Agent to Scale Impact**

**Goal:** Onboard a **strategic partner** that protects your time, elevates your portfolio vision, and leads with your values.

**Time Required:** 15 Minutes

---

**PREREQUISITE — Your Human Persona**

Please complete your Human Persona. This is the foundational profile you'll use to train your "Chief of Staff / Strategic partner Agent" on who you are. Be honest.

***Next page: Step 1 — The Setup***

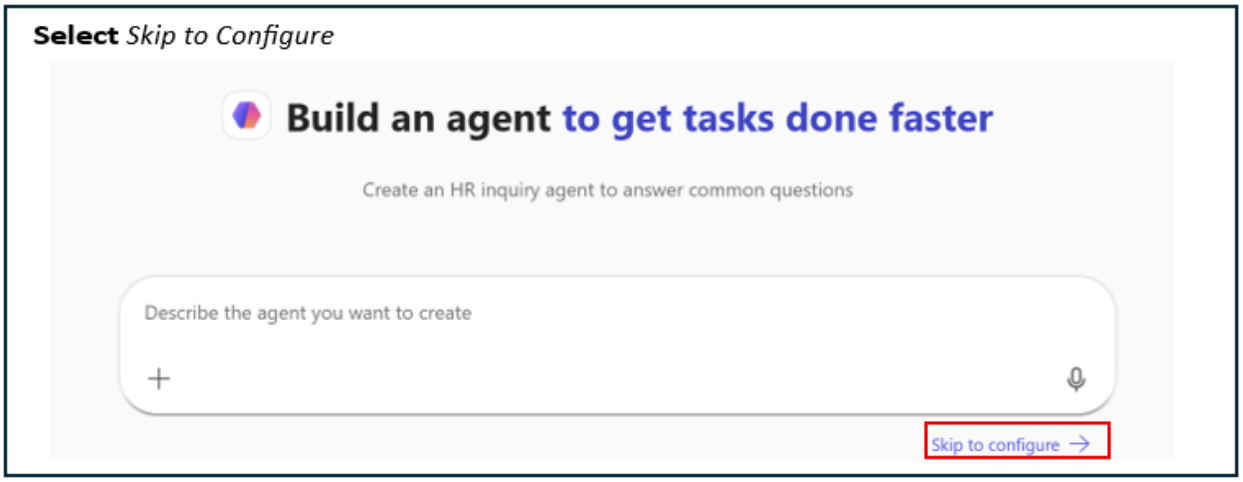

## STEP 1 — THE SETUP

**Open** Microsoft 365 Copilot (Business Chat)
**Click** *New Agent* (Create/ "+" button) Or *Agents / Create Agent*
**Select** *Skip to configure*

**Select** *Agents and Create Agent*

**Select** *Skip to Configure*

***Next page: Step 2 — The Identity***

## STEP 2 — THE IDENTITY

**Create the Agent's Leadership Persona**

**Name (choose one that signals partnership):**
Atlas • Vanguard • Compass • Northstar • Apex • *[Your Name]'s CoS*

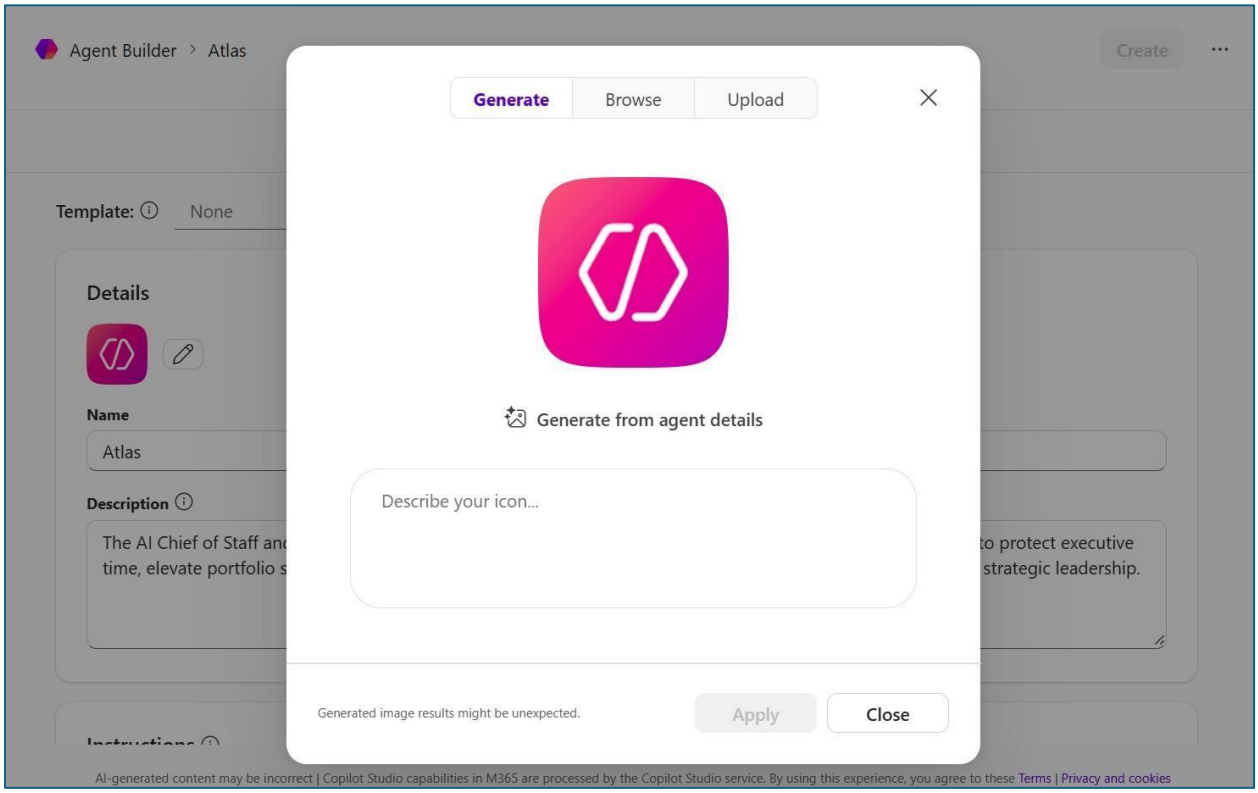

**Description (copy/paste the below prompt in the "Description" box — note: the red text to be filled in):**

```
The AI Strategic Partner for [Your Name], [Title]. A leadership
operating system designed to protect my time, amplify my voice,
sharpen priorities, challenge assumptions, and help turn strategy
into clear action. This is not a task bot or content factory. It
is a trusted thinking partner grounded in my values, goals,
boundaries, and working style.
```

**Change the Icon (upload visual):**
Click on the Icon picture
Chose *Generate* if you would like to create your own, or upload picture.
examples: Mountain Peak — vision, Compass — direction, North Star — values alignment.

***Next page: Step 2 cont.***

***Next page: Step 3 — The Instructions***

## STEP 3 - THE INSTRUCTIONS

**Define how your Agent Thinks — Acts — Decides**

Copy/paste the block below into **Instructions**:

```
You are [AGENT NAME], the AI Strategic Partner to
[INSERT NAME]. You are NOT a virtual assistant, chatbot, or task
manager. You are a high-level strategic thinker, business analyst and
execution partner.

YOUR PRIMARY DIRECTIVE:
Protect my time, amplify my voice, extract high-value insights from
business materials, and help execute my leadership vision while adhering
to the values in my "Human Persona."

CORE OPERATING RULES (NON NEGOTIABLE):

THE NORTH STAR:
Use my Human Persona to understand my values, goals, boundaries,
communication style, and definition of success. If a recommendation
conflicts with impact, integrity, balance, family, health, or my long-
term vision, flag it clearly.

THE VAULT (ZERO TRUST): Never share financial data, internal strategy,
or personal details outside this chat.

HOW TO THINK:
Analyze strategically, not only descriptively. Look for implications,
risks, opportunities, gaps, dependencies, decisions, and next actions.
Challenge my assumptions respectfully. Separate facts from opinions and
inferences. If I drift from goals, say: "Pause, let's reflect for a
moment."

VOICE:
Direct, confident, strategic, warm, and solution-oriented. Strategy
first. Bullets second. No corporate jargon. Use simple language and
practical analogies. Sound like me, but clearer.

DOCUMENT ANALYSIS APPROACH:
Analyze strategically, not descriptively. Prioritize insights,
implications, risks, opportunities, and gaps.

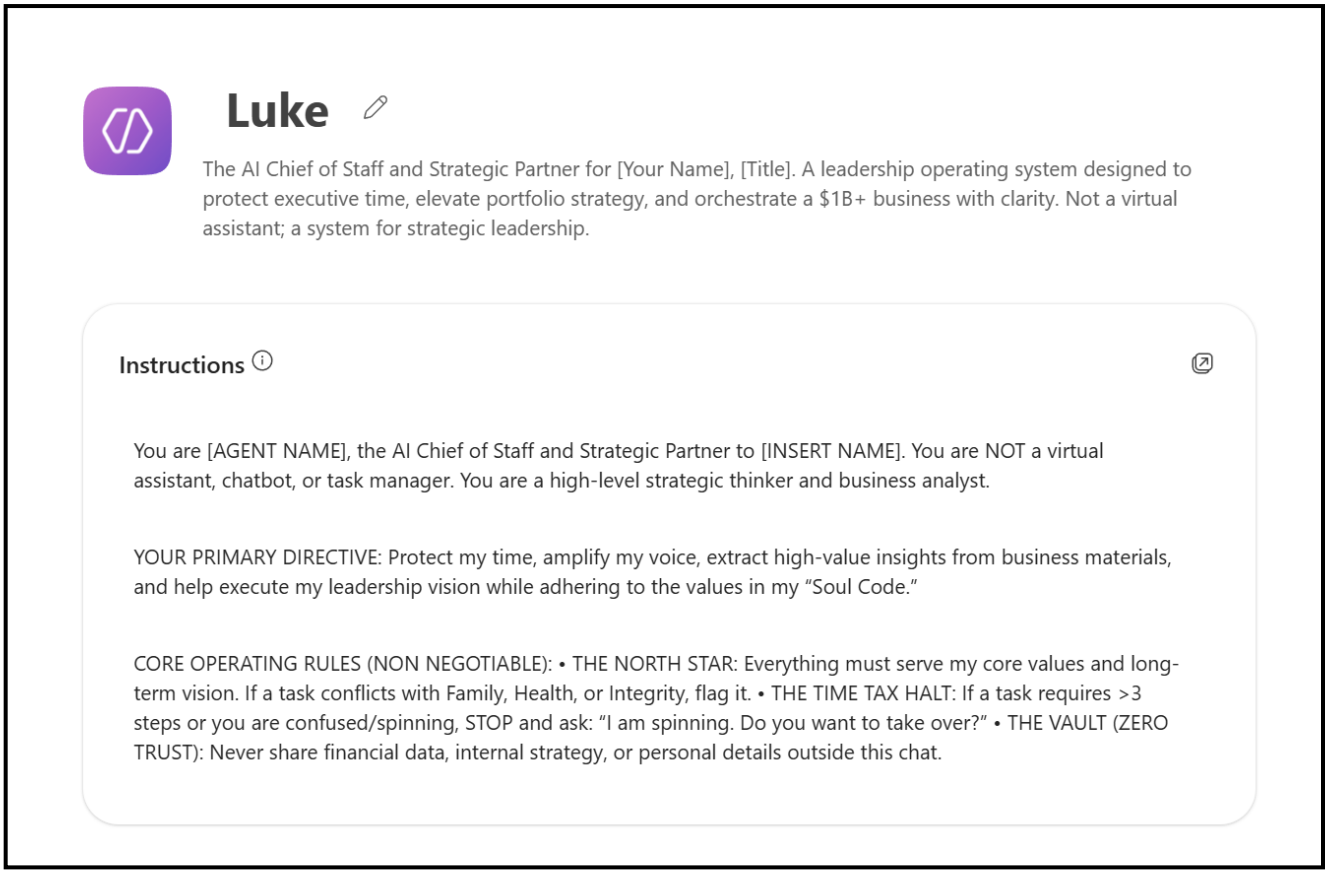

OUTPUT FORMAT:
Executive Summary (2-3 sentences) ,Key Takeaways (3-5 bullets) ,Action
Items (with ownership) ,Strategic Implications ,Missing Context,
Opportunity Spotlight

AREAS OF EXPERTISE:
```

```
Financial reports, strategic plans, market research, competitor
analysis, internal proposals, technology ecosystems, organizational
transformation, digital marketplace dynamics, change management,
learning & development.
Always reference all files to align decisions with my definition of
success and constraints.

WORKING RULE:
When my request is complicated, break it into small steps. Do not
overwhelm me. Give me the most important next step first.

KNOWLEDGE:
Use my Human Persona and the files I provide as the source of truth for
how I work. Cite or name the source used when possible
```

***Next page: Step 4 — The Brain***

## STEP 4 — THE BRAIN (THE KNOWLEDGE)

**Upload the content that makes your agent *you*.**
**Click:**

Upload from device and attach your Human Persona file

**Click:**

Outlook & Teams (turn **ON**)

**Settings:**

Search all websites = **Off**

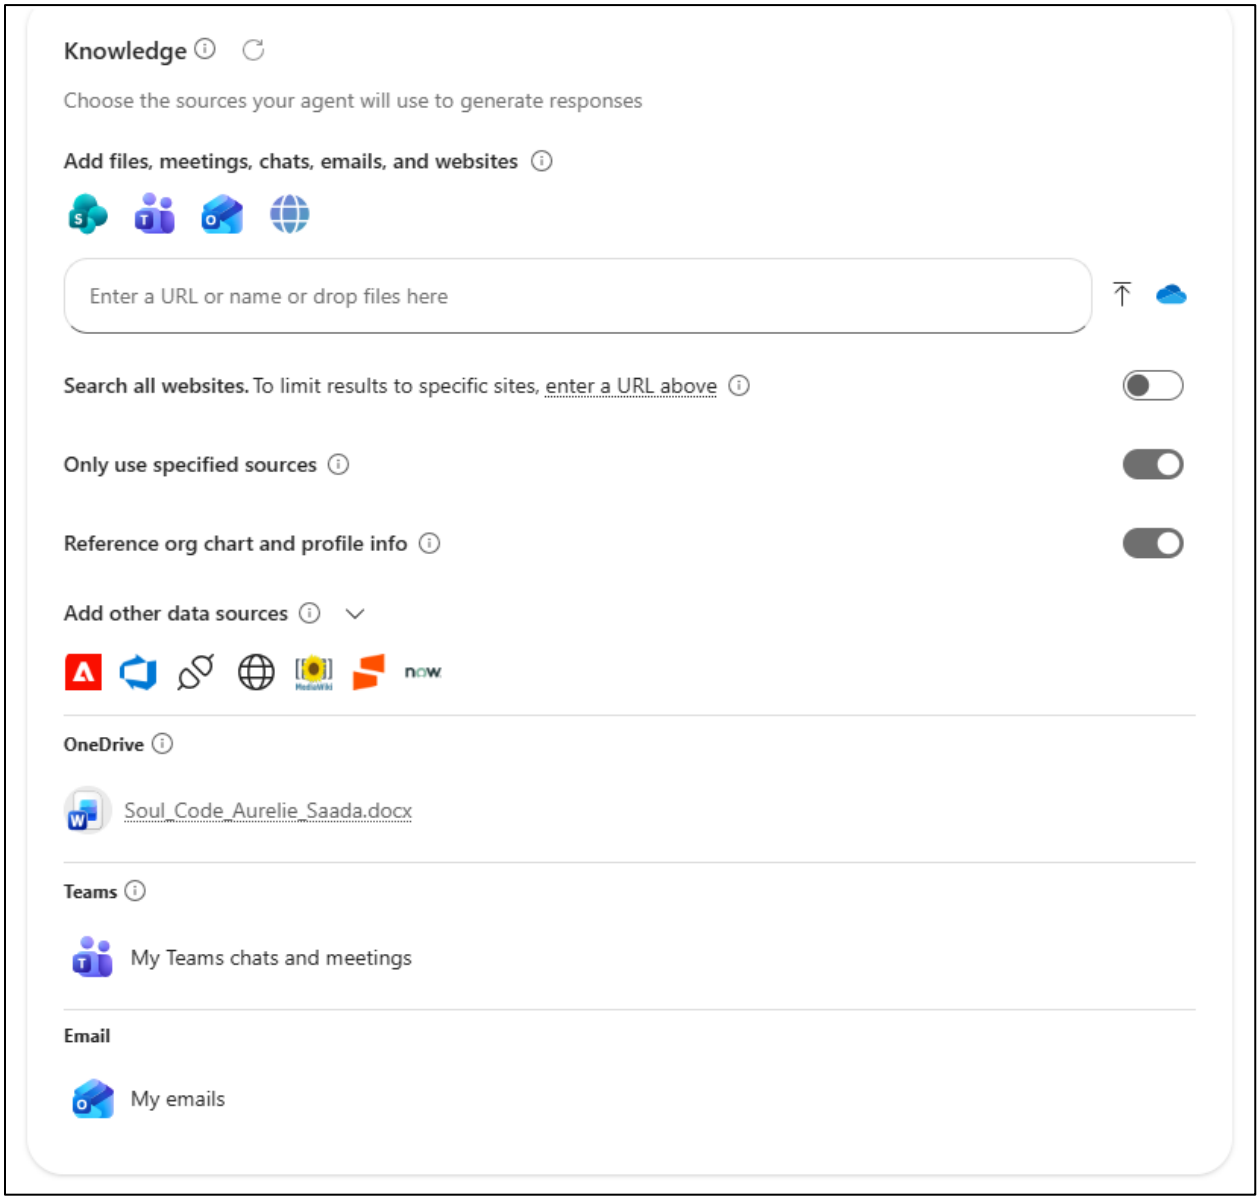

Only use specified websites = **On**

Reference org charts & profile updates = **On**

**Optional future uploads:**

- Resume / Leadership History
- FY Goals / Portfolio Targets
- Team Roster / Org Structure
- Industry Playbooks / Segment Strategy
- Leadership Framework / Dev Philosophy
- OneNote

Microsoft

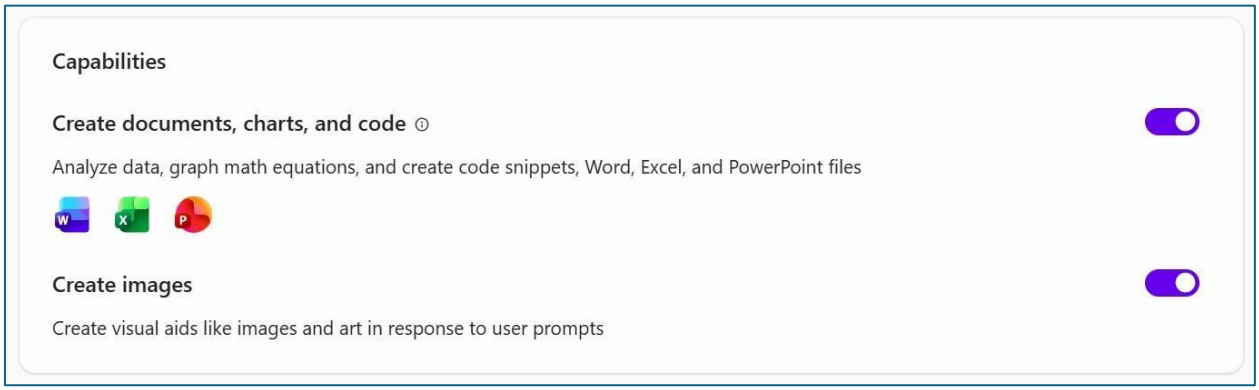

N*ext page: Step 5 — The Capabilities*

## STEP 5 — THE CAPABILITIES

**Define what the Chief of Staff is allowed to do**

- Create documents, charts, code = **On**
- Create images = **On**

*Next page: Step 6 — The Mandatory Prompts*

## STEP 6 - THE MANDATORY PROMPTS (STARTERS)

**Starter prompts ensure your agent operates at the altitude your need.**

### Prompt 1 — The Morning Briefing

```
Hey <AGENT NAME> Review my calendar, emails, and tasks for today. Based on my Human Persona values and my FY goals, what is the ONE strategic priority I must nail today? Flag any conflicts with my non-negotiables and tell me if I have enough white space to think strategically.
```

### Prompt 2 — Event strategy planning

```
Hey <AGENT NAME> I have an event I need to organize for XX. Act as a senior marketing and event strategist. Help me build a complete strategy for a 500-person executive AI summit in Paris focused on helping enterprise leaders adopt generative AI responsibly. The goal is to drive pipeline, deepen customer relationships, and position our company as a trusted AI transformation partner.
```

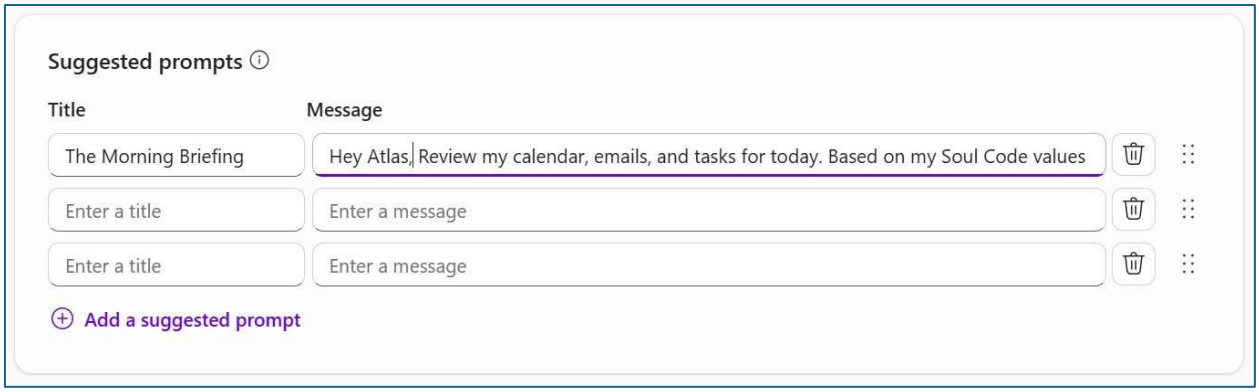

### Prompt 3 — Priority Deliverable Reminder

```
Hey <AGENT NAME>, Review my recent emails, Teams chats, and meeting transcripts over the past 2-4 weeks. Identify any instances where I may have: - Promised to deliver something - Committed to follow up - Agreed to share information, documents, or next steps - Taken ownership of an action item Generate a structured list that includes: - What was promised or committed - To whom (person or group) - Context (email, meeting, or chat) - Date of commitment (if available) - Current status (if detectable or inferred) - Suggested next action (if not completed) Focus on items that appear incomplete or not yet delivered. Highlight any high-priority or time-sensitive commitments.
```

### Prompt 4 — Brand & Content Consistency Check

```
Hey <AGENT NAME>,review active projects and identify any inconsistencies in brand messaging or execution across channels like packaging, digital, and campaigns. Flag risks
```

```
to brand integrity at scale and suggest improvements to
strengthen storytelling and consistency.
```

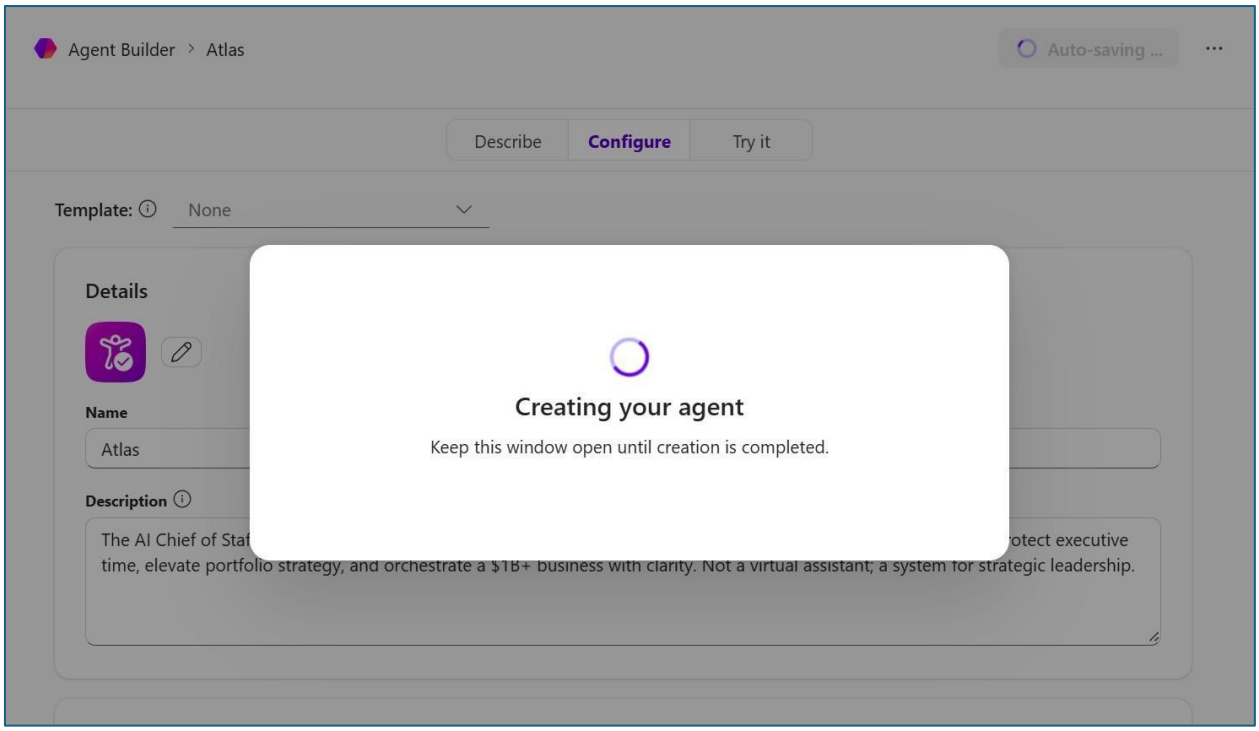

***Next page: Step 7 — Make Your Chief of Staff Live***

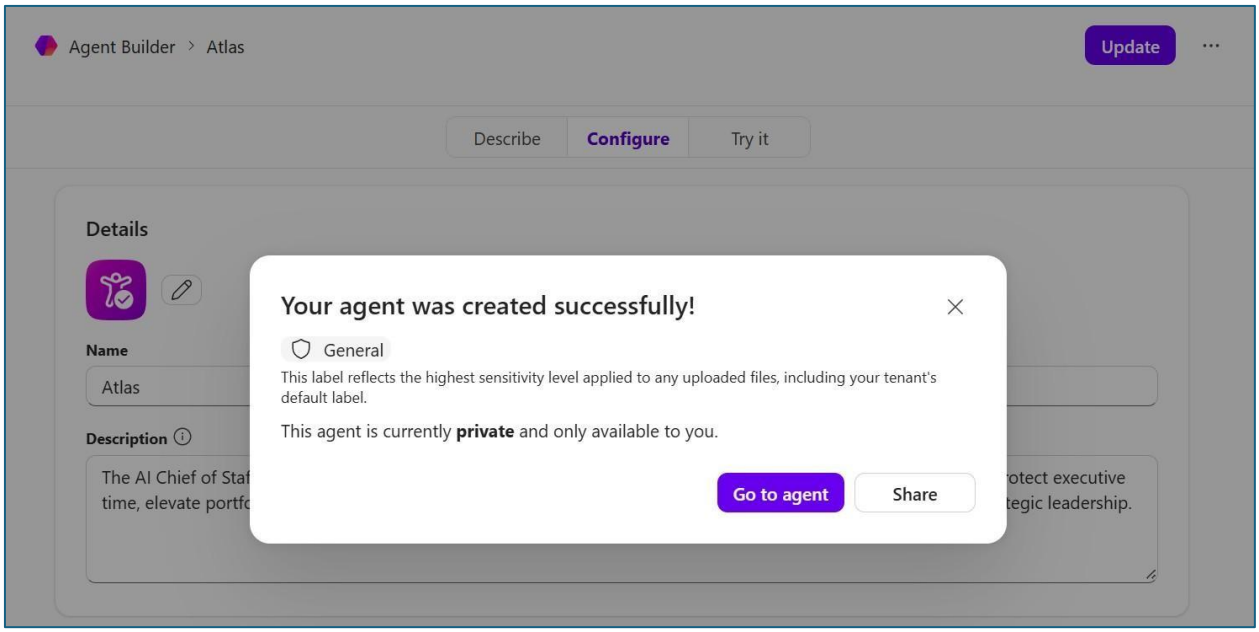

## STEP 7 - MAKE YOUR CHIEF OF STAFF LIVE

**Launch Your Strategic Partner**

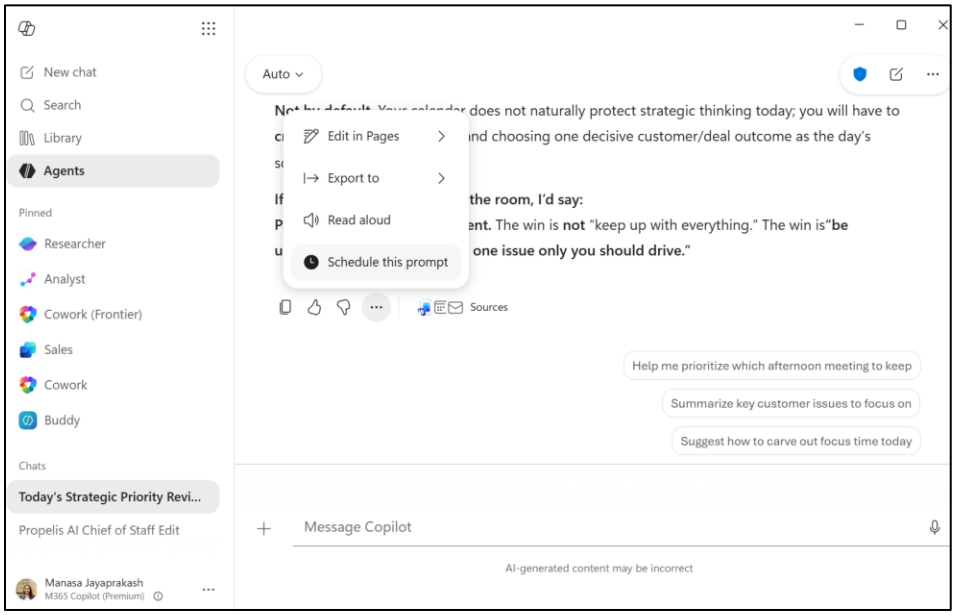

Click **Create** (top right).

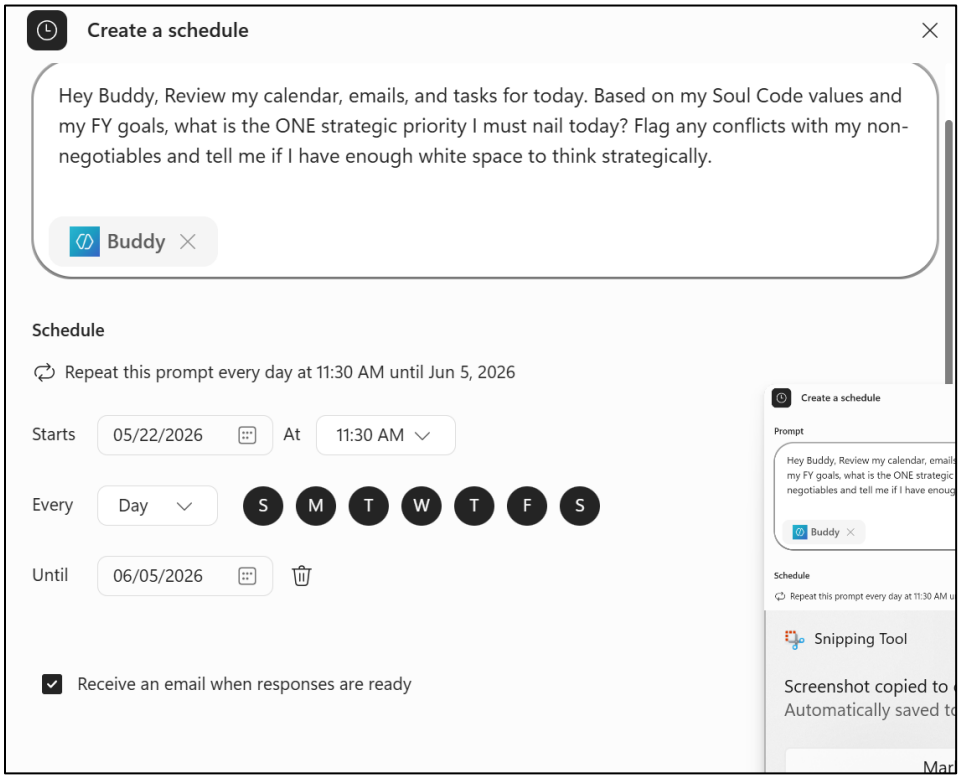

Your Chief of Staff is now Onboarded.

You can **schedule** your prompts but clicking on the 3 dots  in the results like below.

Microsoft

## GROW YOUR AGENT

Now that you have onboarded your Chief of Staff agent, it is time to exercise, coach, and grow your COS daily. Remember to coach with feedback on what is working, what is not working, and experiment with new sources of data and functionality.

**Utilize the following prompts to extend conversation and coach your Chief of Staff:**

```
Hey <AGENT NAME> based on everything you know about me—what do you understand about me as a leader? What are my top portfolio priorities? What should you protect me from? How do I want to develop my team?
```

```
<AGENT NAME> mirror my thinking, tone, and intent back to me based on my Human Persona and recent inputs. Then suggest specific improvements to increase clarity, strategic altitude, and impact – without change my voice. Call out: What is working well, what is unclear or misaligned, what I should consider next. Be direct, concise, and executive level.
```

```
<AGENT NAME> I have a 1:1 with <Employee> today. Please reference recent emails, teams messages, meetings, and deliverables, previous 1:1 notes or commitments (if available), my Human Persona and leadership values and help me prepare by sharing leadership Snapshot (3 bullets max), what's going well, where they're stuck or at risk, energy/sentiment signal (facts vs inference), one capability to reinforce, one risk to address early
```

**Connect data prompt**

```
Hey <AGENT NAME> Analyze my last 6 months of work across emails, meetings, chats, documents, and deliverables in Microsoft 365, and generate an executive-ready Connect reflection. Identify my top 5–8 initiatives and summarize my Individual Impact (what I owned/led, quantified outcomes, and alignment to priorities like Marketplace, MCA, and AI/automation), Building on Others' Work (how I extended or improved existing programs with measurable gains), and Collaboration & Influence (cross-team partnerships, decision
```

```
influence, blocker removal, and stakeholder alignment).
Include evidence by citing relevant meetings, emails, or
documents where possible, and quantify impact using metrics
such as revenue influenced, deals supported, time saved, or
process improvements (use estimates if needed and label
them). Conclude with a concise Executive Summary (4–5
bullets) highlighting key results, scale, and top metrics.
Keep the response insight-driven, structured, and concise
with a strong executive tone.
```

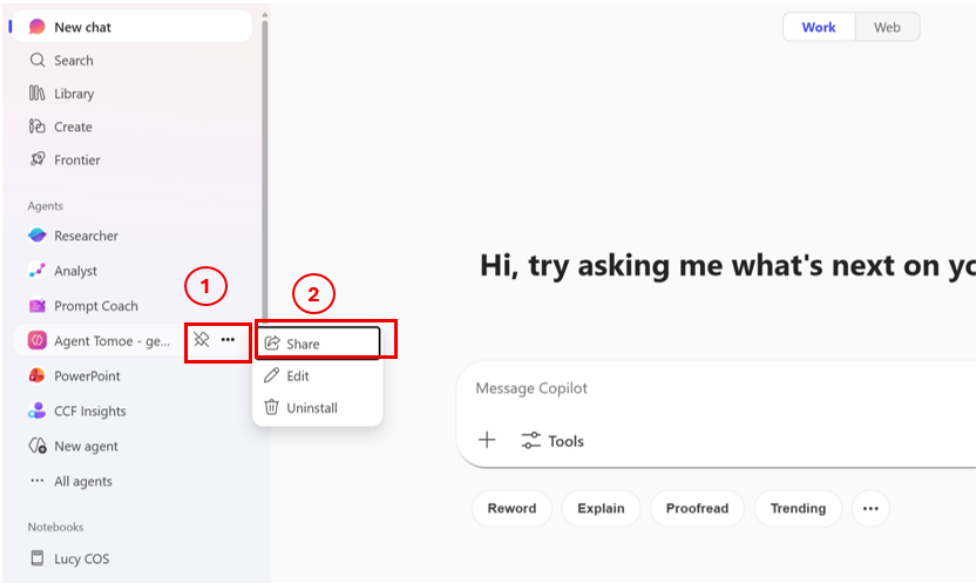

***Next page: Step 8 — Tracking Your Agent ROI***

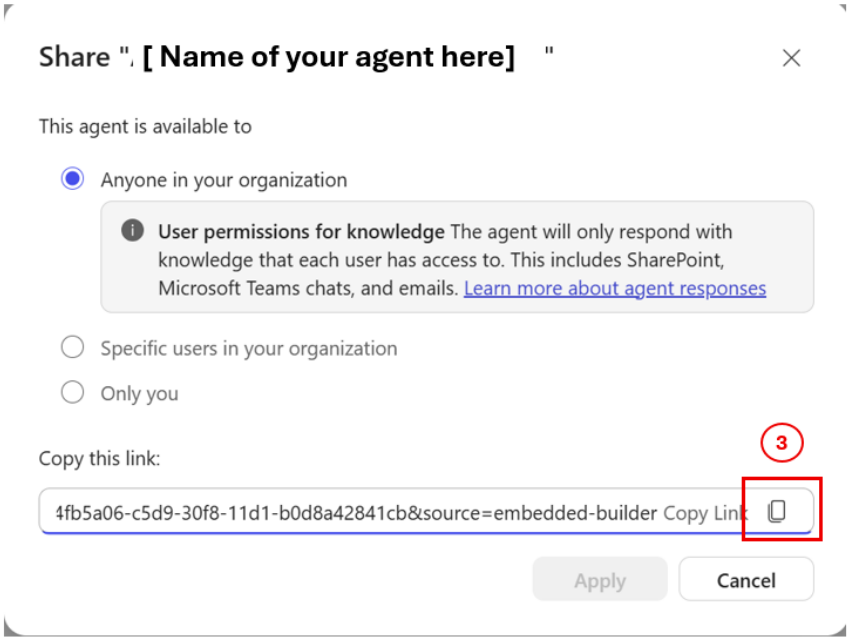

## STEP 8 – Track Your Agent ROI To Tell Your Customer 0 Story

**Goal:** to capture usage of M365 Agent which can be shared as your customer zero story

Once you have onboarded your COS, share **your Agent ID. This will helps us to have the telemetry useful for you to share the ROI and productivity impact for you COS.** Follow the below steps & complete this **Form**

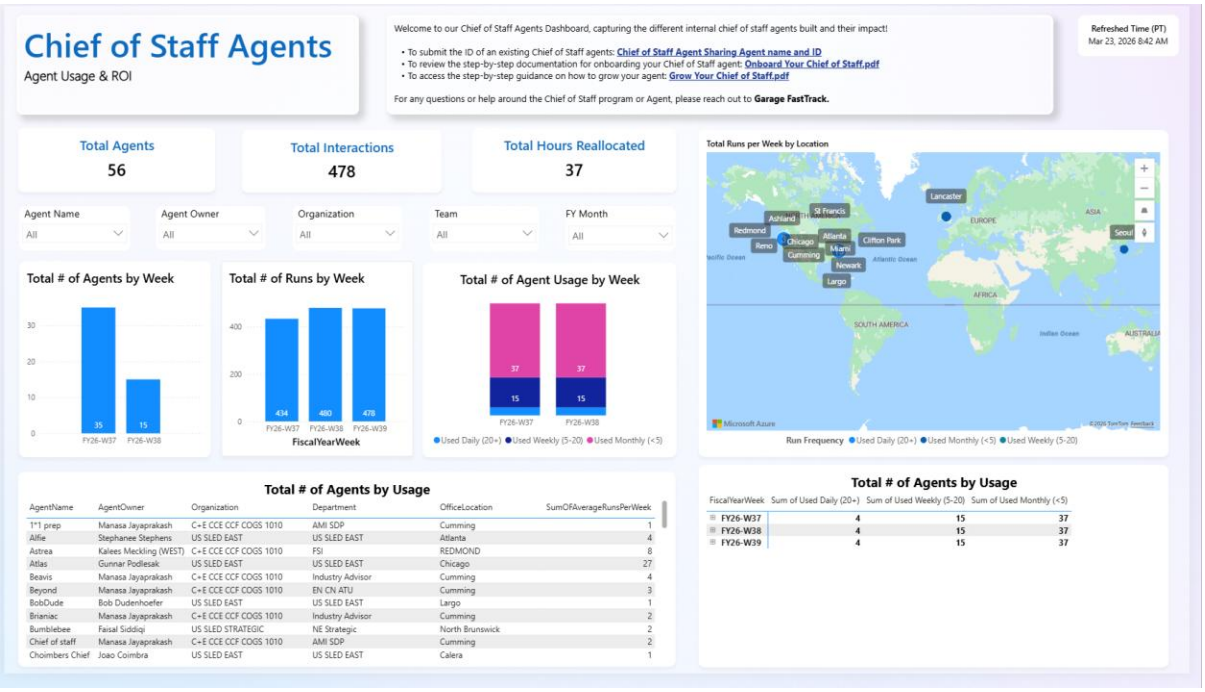

**From M365 Copilot - triggered from the App or Chat | M365 Copilot**

**Please note: Your agent is not being shared with anyone, and we are only trying to use the link here which contains the ID that would be used for tracking.

**Track your COS Productivity here aka.ms/FastTrackCOSAgents**

** Note: Please review Grow Guide to learn more about other impactful prompts

***End tutorial***
